

Come Together, Raise Funds and Build the Campaign for BA Everywhere

You are invited to come together, raise funds, and build community, as part of accelerating the BA Everywhere campaign. The campaign aims to raise big funds to make the new synthesis of communism that Bob Avakian (BA) has brought forward, and the leadership he provides, a major question in society: a point of reference and, for increasing numbers, a living framework for how to understand, and transform, the world. The new synthesis represents a qualitative advance in the scientific approach to making revolution and emancipating humanity.

BA, the Chairman of the RCP, USA, embodies a rare combination: a revolutionary leader who on the basis of 40 years of work has been able to develop scientific theory on a world-class level, while at the same time having a deep understanding of and visceral connection with the most oppressed, and a highly developed ability to “break down” complex theory and make it accessible to the masses of people.

Where there is oppression, there will be resistance—the masses of people will continually rise up against their conditions of oppression and those who enforce this oppression. But, without the necessary scientific theory and leadership, the struggle of the oppressed will be contained, and remain confined, within the system which is the source of oppression, and the horrors to which the masses are subjected will go on, and on.

BA, his work, and his leadership exist at a time when the influence and organized force of revolution—*real* revolution—is not nearly as strong as it urgently needs to be, but the basis for this is actually stronger than ever. The biggest immediate problem right now is that this is *not yet known in the way it needs to be...* As BA himself says in the new work we are celebrating:

There is an urgent need for this new synthesis to be taken up, broadly, in this society and in the world as a whole: everywhere people are questioning why things are the way they are, and whether a different world is possible; everywhere people are talking about “revolution” but have no real understanding of what revolution means, no scientific approach to analyzing and dealing with what they are up against and what needs to be done; everywhere people are rising up in rebellion but are hemmed in, let down and left to the mercy of murderous oppressors, or misled onto paths which only reinforce, often with barbaric brutality, the enslaving chains of tradition; everywhere people need a way out of their desperate conditions, but do not see the source of their suffering and the path forward out of the darkness.
