

He LIED... when he said:

"You remember when Colin Powell stood up in front of the world, and he said Iraq has got laboratories, mobile labs to build biological weapons....They're illegal. They're against the United Nations resolutions, and we've so far discovered two. And we'll find more weapons as time goes on, But for those who say we haven't found the banned manufacturing devices or banned weapons, they're wrong. We found them."

- George W. Bush, remarks to reporters, May 31, 2003

He LIED... when he said:

"Our intelligence officials estimate that Saddam Hussein had the materials to produce as much as 500 tons of sarin, mustard, and VX nerve agent.... The British government has learned that Saddam Hussein recently sought significant quantities of uranium from Africa."

- George W. Bush, State of the Union Address, Jan. 28, 2003

He LIED... when he said:

"Intelligence gathered by this and other governments leaves no doubt that the Iraq regime continues to possess and conceal some of the most lethal weapons ever devised."

- George W. Bush, address to the U.S., March 17, 2003

So why in *hell* should you believe him *now*?

"Some of the most powerful IEDs that we are seeing in Iraq today includes components that came from Iran.... What we do know is that the Quds force was instrumental in providing these deadly IEDs to networks inside of Iraq. We know that... I can say with certainty that the Quds force, a part of the Iranian government, has provided these sophisticated IEDs that have harmed our troops."

- George W. Bush, remarks at press conference, February 14, 2007

Let's all remember: the people telling us this are *proven liars*—and not about little things but about the biggest things there are.
