THE NEW COMMUNISM

The science, the strategy, the leadership
for an actual revolution,
and a radically new society
on the road to real emancipation

Insight Press announces that in addition to the print book, *THE NEW COMMUNISM* is now available as an eBook at Amazon, iBooks, Barnes and Noble and other retail and library websites, and at some sites as a PDF.

For anyone who cares about the state of the world and the condition of humanity and agonizes over whether fundamental change is really possible, this landmark work provides a sweeping and comprehensive orientation, foundation, and guide to making the most radical of revolutions: a communist revolution aimed at emancipating humanity - getting beyond all forms of oppression and exploitation on a world scale.

The author, Bob Avakian, is the architect of a new synthesis of communism. This new synthesis is a continuation of, but also represents a qualitative leap beyond, and in some important ways a break with, communist theory as it had been previously developed. Avakian has written this book in such a way as to make even complex theory accessible to a broad audience. In this book, he draws on his decades of work advancing the science of communism and his experience as a revolutionary communist leader, including leading the Revolutionary Communist Party, USA, as its Chairman since its founding in 1975.

This is a pathbreaking work, one that scientifically analyzes the system of capitalism-imperialism and its unresolvable contradictions; confronts the challenges facing the movement for revolution; and forges a way forward to making an actual revolution in this country, as part of contributing to communist revolution internationally.
