WE MARCH TO THE 77TH

If you are fed up with this system and its horrors, and with its phony “solutions” that are no solutions... then we have a message for **you**:

**Revolution is needed. Revolution is possible. And we are organizing to make it real.**

**We** are the National Revolution Tour. We have the science, the strategy, and the leadership in Bob Avakian to **MAKE** an actual revolution. We are going across the whole country, organizing people into the revolution. So...

if you have had it with what this system does...

if you are furious with the cops running amok against Black and Brown people..or the anti-woman and anti-LGBTQ laws and lunacy... or the heartless persecution at the border...or the genocidal wars... or the wanton destruction of the earth we share with 7 billion other humans...or at *all* of these outrages...

if you are fed up with the divisions this system puts on us, and want to be part of uniting all different kinds of people to bring this monster down...

*Then we need to be together, in the streets and then getting organized, on June 8 and 9, in LA. Your energy, **your** ideas, **your** courage, and **your** aspirations are urgently needed – to build a movement that can change everything. As we spread revolution, we are gathering the thousands NOW as a force to lead the millions we need to actually WIN a real revolution.*
