

Bob Avakian (BA) has made a breakthrough for human emancipation. You are needed – to let the world know! Contribute to – and join – the BA Everywhere Campaign.

We need *an actual revolution* to get beyond the horrors and madness of this system ... police murder and mass incarceration, women raped and degraded, environmental catastrophe, millions driven from their lands because of horrific wars and grinding poverty. Making this revolution – and forging a radically different society to overcome all this – is *complex*. It requires *science* – a way to know the world and how it can be changed – and it requires scientific *leadership*. *BA's new synthesis of communism* represents a world historic advance on these. But very few know about this, or him. BA Everywhere, the mass *fundraising campaign* seeks to change this by getting BA *EVERYWHERE*.

Getting BA Everywhere changes how people look at *what is possible and desirable*. It breaks people out of thinking that their only choices are those *dictated by the system*. No longer the “lesser of the evils” in the war criminal Hillary Clinton, against the fascist monster Trump. Breaking out of the deadly dynamic where Western imperialism and Islamic fundamentalism fuel each other, while grinding up humanity. Raising *sights to a far better world*, BA Everywhere *changes the conversation* to the real questions of what it means to be free, and what will it take to get there. *Imagine the Difference!*

If you don't know about BA, Get into BA! Read *BASics*, from the *Talks and Writings of BA*. Watch the films, *BA Speaks: Revolution, Nothing Less*, and *Revolution and Religion: The Fight for Emancipation and the Role of Religion*, the film of the Dialogue between Cornel West and Bob Avakian.

Even while you are learning, Join the Campaign. Donate generously to the *Bob Avakian Institute (BAI)*, and contribute ideas and efforts to raise funds. Be part of promoting BA's seminal new book, *The Science, the Strategy, The Leadership for an Actual Revolution and a Radically New Society on the Road to Real Emancipation*, and projecting this real emancipatory alternative at the Republican and Democratic Conventions. Talk to a representative of the BA Everywhere campaign at this picnic.
