

# WANTED: A Powerful: Anti-War Movement

*McWorld or Jihad?!? There must be another way.*

*How can we fight against the unjust bombings and military interventions of the U.S. government and the intense repression and profiling of Arab and Muslim people?*

*How can people around the world deal with reactionary forces and ideologies in a way that does not end up strengthening global exploiters and oppressors?*

*How can people in the U.S. communicate to the people halfway across the planet that there is a difference between the U.S. power structure and the great majority of the people in the U.S.— who have no fundamental interest in oppressing and ripping off the people of the world?*

*How can we help give “air to breathe” to the kind of movements that can really liberate people from the global oppressors—and create societies where poverty, unjust violence, ethnic hatred, and the oppression of women can be eliminated?*

Thinking about these problems—and the need for proletarian revolution in the U.S. and around the world—RCP Chairman, Bob Avakian wrote:

**“We must bring forward the vision of a movement against the war acts and repression of ‘our own’ U.S. government that is so powerful that it cannot be hidden from the masses of people all over the world—including in the countries and areas that are targets of U.S. imperialist aggression and are, justifiably, ‘hotbeds’ of hatred ‘against America.’**

**“Imagine, what it would (and will) mean to those millions and millions of people when they see hundreds of thousands and ultimately millions of people in America itself, taking on the aggression (and repression) of their own government and standing with the people of the world against all that this government stands for and is doing and enforcing in the world. Imagine the questions that will raise in those people’s minds, the “dialogue” (even if indirect) it will give rise to, among people all over the world with people in the U.S. itself.**

**“Imagine the inspiration it will provide and the potential realignment it will contribute to—with ordinary people worldwide finding common cause against the oppressors and bullies of the world, first and above all the rulers of America—who, it will be more and more clear, do not speak and act in the interests, or in the name of large, and growing, numbers of American people themselves....”**

*Imagine...*

*Strategize...*

*Unite all who can be united...*

*Realize the vision...*

*The whole world is watching.*
