

HEY STUDENTS!! THOUGHT ABOUT YOUR FUTURE??

So you're finally at your dream school. You want to learn about the big ideas. You want to be challenged and provoked in your courses, and in all-night talks with fellow students. You want to check out the world and experiment...maybe you even want to (gasp) change things.

Well, get real! By the time we're through with you, you'll owe tens of k in student loans and another shitload to Mastercard. No, grasshoppers, you're going to need to learn how to make a living in the festering, polluted shark tank of a society you'll be swimming in, and to salve your conscience while you do. So, forget about those childish ideals, dreams and wants – we know what you **NEED...**

BE AN ENTRE-MANURE!

Learn how to take the things that people create and love, how to take their deepest yearnings and highest aspirations, how to take even – no, especially – their most basic needs, and... **TURN THEM INTO SHIT!!!**

The giant shit-creating-and-spewing machine that is America is turning more things into turds than ever. And you can get in on it! And remember:

THERE IS NO ALTERNATIVE!!!

Here's just a few of the courses we offer * :

HMI 666

Hu-manure-itarianism

Do well by doing good! Learn how to market disease, starvation and deprivation – and feel good about yourself in the bargain. Some of the important skills you'll learn:

- how to brand yourself as *a concerned but "realistic" young person...*
- how to eat lunch with the mass murderers who brought you the invasions of Iraq and Afghanistan, *and not barf all over the table...*
- how to shake hands with international bankers *while not exposing your neck veins...*
- how to shut your eyes and close your ears to information about what micro entre-manure-ialism *really does – and doesn't – do...*

You'll thrill as the rulers of the world pretend to listen to your opinions! And our special gym classes will keep you agile and speedy enough to prevent your ass from getting hit by the door on the way out.

Special guest lecturer: Bono!

GEM 101

Green entre-manure-ialism

Remember when BP said that it was the "green" oil company, and that its initials stood for "Beyond Petroleum?" Well, it worked for a while, didn't it? And that's just part of what you'll learn how to do in this course. We'll show you how to package the air-befouling, river-poisoning, species-killing company you work for as "friendly to the planet." We'll show you where the best investment opportunities lie – whether it's cap-and-trade swindles, or shipping toxic waste to Africa, we can help you with your own start-up, your own IPO (incredibly parasitic opportunism). **Remember – making the green is way more important than being green!**

WEM 205

Entre-manure-ialism for women

We're all post-feminist now. Forget emancipation – it's all about empowerment. And since you can't empower yourself to really change things, you can at least get in on the gorging. We'll teach you how to market yourself in the sex industry – be a porn star, or even a director. That doesn't suit you? How about being a wedding planner for the big white weddings? After all, the point is not to escape degradation (anyway, who are you to say what's "degrading"?), but to OWN your degradation and profit from it. Plus, think about all the ways you can apply these valuable entre-manure-ial lessons and values to **your own hopelessly naive dreams of an equal, mutually fulfilling relationship!**

HHEM T40

Hip-hop entre-manure-ialism

Yo backpacker, you don't want to be a moody, rebellious nobody all your life, do ya? Locate your inner hunger. Turn that rebellion into cash. Get into cultural pimping and become a hip-hop entre-manure. Learn how to commodify your people and especially how to pornify and degrade women – then climb into our waiting Escalade, and sit next to our Jay-Z bobble-head to give you that "imperialist state of mind." Our special counselors will keep you up to date with the latest hard-core poses and show you how to **sell your soul for a mess of Hennessy.**

* Results may vary. A future is not guaranteed. Human rights, environmental sustainability, critical thinking, emancipatory morality and freely associating human interaction not included. Void where real revolution overcomes.

"Hmm, maybe we need a RADICAL alternative..."
