

What we need is an actual revolution— and if you are serious about an actual revolution, you have to get seriously into Bob Avakian.

SCIENCE AND REVOLUTION

On the Importance of Science and
the Application of Science to Society,
the New Synthesis of Communism and
the Leadership of Bob Avakian

An Interview with
Ardea Skybreak

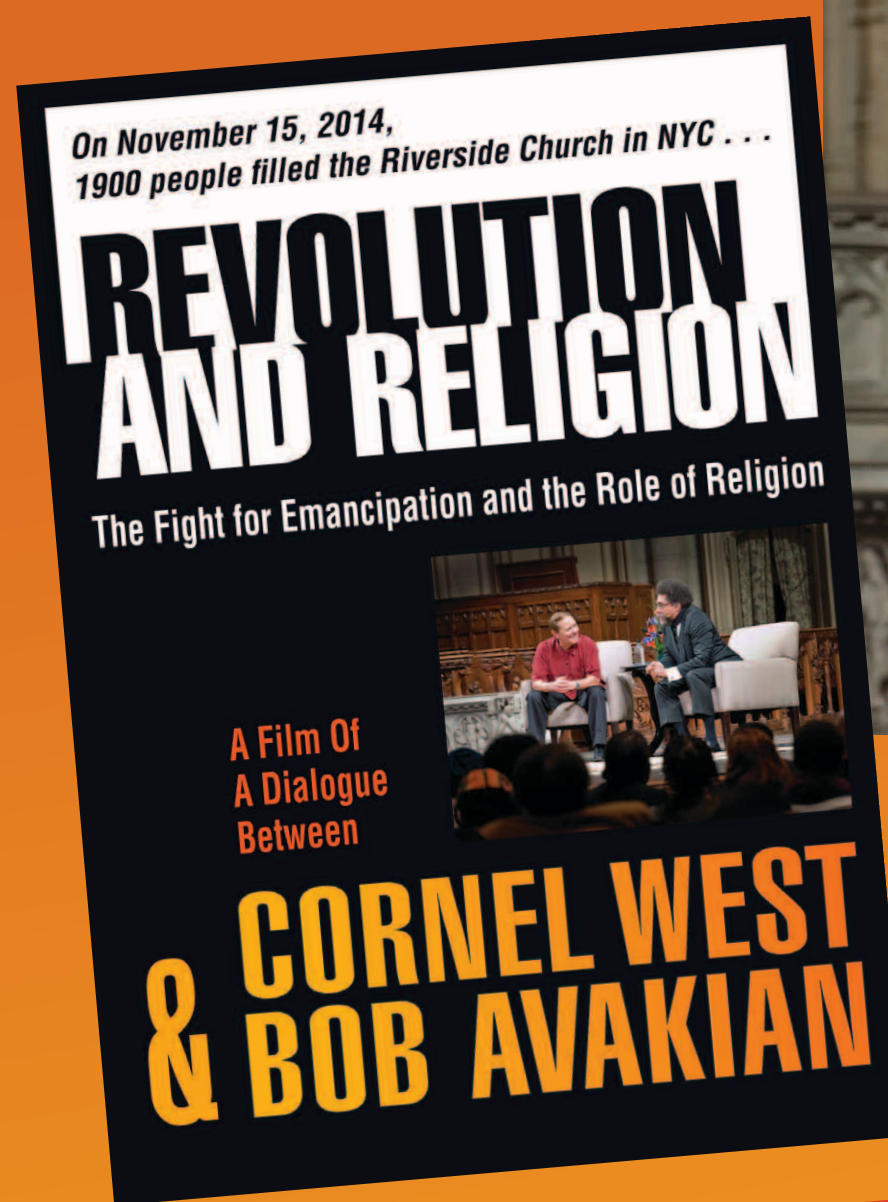

In 2015, *Revolution* conducted a wide-ranging interview with Ardea Skybreak. A scientist with professional training in ecology and evolutionary biology, and an advocate of the new synthesis of communism brought forward by Bob Avakian, Skybreak is the author of, among other works, *The Science of Evolution and the Myth of Creationism: Knowing What's Real and Why It Matters*, and *Of Primeval Steps and Future Leaps: An Essay on the Emergence of Human Beings, the Source of Women's Oppression, and the Road to Emancipation*.

In the fall of 2012, Bob Avakian gave a series of talks in different cities. This is a film of one of these talks.

“Those this system has cast off, those it has treated as less than human, can be the backbone and driving force of a fight not only to end their own oppression, but to finally end all oppression, and emancipate all of humanity.”

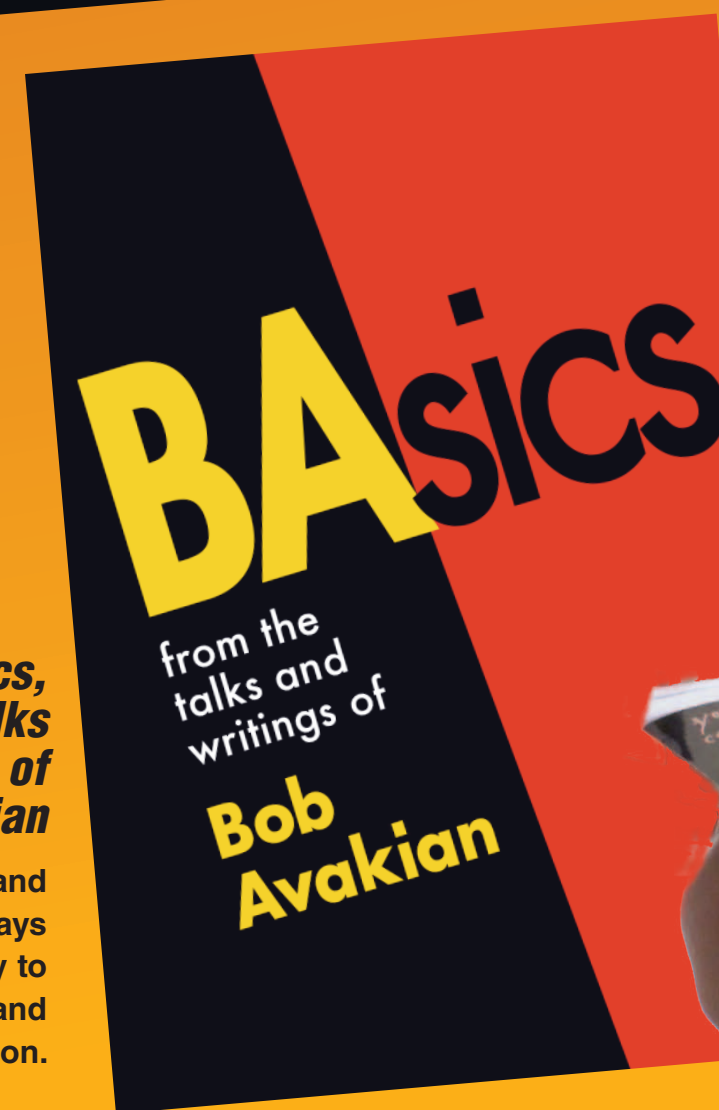

—From the film

A film of the November 2014 historic Dialogue on a question of great importance in today's world between the Revolutionary Christian Cornel West and the Revolutionary Communist Bob Avakian.

“The film brings you up close inside Cornel West's and Bob Avakian's dialogue: the passion, the audacity, the science, the morality, the revolutionary substance. Two courageous voices modeling a morality that refuses to accept injustice – pouring heart and soul into standing together challenging all of us to fight for a world worthy of humanity.”

—Andy Zee, co-director of the film

BASics, from the talks and writings of Bob Avakian

A book of quotations and short essays that speaks powerfully to questions of revolution and human emancipation.
