

Revolution Club ANTI-4th of July Picnic

Tuesday, July 4th 2 PM

63rd Street Beach (look for the red flags)

AMERICA WAS NEVER GREAT— And the 4th of July is nothing to celebrate! This 4th of July, come together with the Revolution Club to celebrate making revolution to overthrow this whole goddamn system. And the only American flags you'll see at *this* picnic will be the ones being burnt!

This country is guilty of horrendous crimes from the time it was founded on the brutal exploitation of Black people through slavery and the massive theft of land and barbaric acts of genocide of native peoples.

Today with the fascist Trump/Pence regime's campaign to "Make Amerikkka White Again," demonizing whole peoples and unleashing racist fascist mobs that have already begun to brutalize and murder people it has deemed as enemies, threatening nuclear war on North Korea, its escalation of the already brutal violence in the Middle East, the speeding up of the round-ups of immigrants and their families, the attempts to slam women back into the dark ages and force them to bear children, the acquittal of pig after murdering pig who has been caught on video snuffing the life out of yet another Black person, it is way past time to reject the idea that we should be patriotic and celebrate the birth of this monstrosity. Instead it is time to get organized to overthrow it.

America sits on top of a global system that oppresses and exploits billions here and around the world. We have no business fighting for this country or much less fighting for a tiny two-block turf within it. The youth in Chicago need to come together to fight for the interests of humanity. This summer, let Chicago be known for people stepping into the revolution, changing what people are getting into and fighting for, and this will inspire people around the world to see that there is a way out of this system.

Get with the Revolution Club to find out about the leadership we have in Bob Avakian and the Revolutionary Communist Party, the science for revolution that BA has developed, the strategy to make that revolution, and the program for the new society aiming toward a communist world free of oppression embodied in the *Constitution for the New Socialist Republic in North America*, written by BA.

"If you can conceive of a world without America – without everything America stands for and everything it does in the world – then you've already taken great strides and begun to get at least a glimpse of a whole new world. If you can envision a world without any imperialism, exploitation, oppression – and the whole philosophy that rationalizes it – a world without division into classes or even different nations and all the narrow-minded, selfish, outmoded ideas that uphold this; if you can envision all this, then you have the basis for proletarian internationalism. And once you have raised your sights to all this, how could you not feel compelled to take an active part in the world historic struggle to realize it; why would you want to lower your sights to anything less?"
