

WANTED FOR MASS MURDER

The Bush Regime

The Bush regime is wanted for the murder of thousands of people in the New Orleans area. These gangsters:

- Slashed the funds for flood control and environmental preservation that could have saved thousands of lives;
- Trapped at least 100,000 people in New Orleans by refusing to provide them with the means to leave;
- Denied water, food, medical care and other vital necessities to the people they stranded in New Orleans, and rounded them up into modern-day slave ships;
- Ordered the cold-blooded murder of so-called "looters" for desperately trying to provide for people's basic needs;
- Enforced and promoted the most blatant racism.

The Bush regime must be held politically accountable for these unacceptable and unconscionable crimes and *driven from office* – NOW!

WARNING: This regime is extremely dangerous and must – and can only – be stopped by millions of people taking mass, independent action.

**THE WORLD CAN'T WAIT!
DRIVE OUT THE BUSH REGIME!**
