

This system and those who rule over it are not capable of carrying out economic development to meet the needs of the people now, while balancing that with the needs of future generations and requirements of safeguarding the environment. They care nothing for the rich diversity of the earth and its species, for the treasures this contains, except when and where they can turn this into profit for themselves.... These people are not fit to be the caretakers of the earth.

Bob Avakian

Chairman of the
Revolutionary Communist Party, USA
