

Let's get down to basics: *We need a revolution. Anything else, in the final analysis, is bullshit.*

Now, that doesn't mean we don't unite with people in all sorts of struggles short of revolution. We definitely need to do that. But the proffering of any other solution to these monumental and monstrous problems and outrages is ridiculous, frankly. And we need to be taking the offensive and mobilizing increasing numbers of masses to cut through this shit and bring to the fore what really is the solution to this, and to answer the questions and, yes, the accusations that come forth in response to this, while deepening our scientific basis for being able to do this. And the point is: not only do we need to be doing this, but we need to be bringing forward, unleashing and leading, and enabling increasing numbers of the *masses* to do this. They need to be inspired, not just with a general idea of revolution, but with a deepening understanding, a scientific grounding, as to why and how revolution really *is* the answer to all of this.
