

From the Revolution Club:

**How long will pigs keep murdering and walking free?
How long will they enforce this system
with its murder, brutality and oppression?**

UNTIL WE MAKE REVOLUTION TO GET RID OF IT!
Get With the Revolution Club and Start Getting Ready for Revolution

“Stephon!” “Clark!” The call and response resonating out of the streets of Sacramento wrenches our hearts with fury. Twenty shots. Twenty-two-years old. In his grandmother’s backyard. Black lives shattered, murdered, stolen. By police with a green light to kill. Again. GODDAMN! Stephon’s brother powerfully spoke out and called forward inspiring resistance, and people have poured into the streets of Sacramento day after day, righteously standing up and demanding justice. Shutting down a Sacramento Kings game, city hall, and the I-5 freeway. This is beautiful and needs to continue and spread.

At the same time, the blue-coated killers of Alton Sterling in Baton Rouge are walking free. People rose up and rocked Baton Rouge—and all over the country, people took to the streets demanding justice. Alton Sterling was selling CDs outside a convenience store when the pigs came and slammed him on the car, threw him to the ground, and shot him while he was down, and they are not even charged with a crime.

We see it again and again. Just here in Chicago: Decynthia Clements in Elgin. For an hour, police surrounded her car while she was having a mental breakdown. She needed HELP. They knew she had a knife and no gun, but as soon as they got her out, they shot. GODDAMN! Justus Howell in Zion, 17 and shot twice in the back. No punishment. The pig who opened fire on Quintonio LeGrier, murdering him and his neighbor Bettie Jones? Nothing. Even after the review board said the cop should be fired, the police superintendent, Eddie Johnson, repeats proven lies from the killer cop justifying these cold-blooded murders.

These are the system’s bullshit “answers.” Civilian review boards that don’t mean shit. Body cams, federal and state investigations, independent prosecutors, voting in elected officials... what does it get us? Killer cops caught red-handed still walking free, more infuriating excuses, more families slapped in the face with “justifiable homicide.” And now the Trump/Pence fascist regime is straight up calling for “taking the gloves off” police, to “get tough” and execute “drug dealers.”

Does this mean we should not rise up and resist? NO. Resistance is righteous, necessary, and the only way to even get close to justice. **But we have to look at the cold truth, and face reality in a scientific way. We have to take to heart the lesson from Bob Avakian, leader of the revolution, when he says:**

The role of the police is not to serve and protect the people. It is to serve and protect the system that rules over the people. To enforce the relations of exploitation and oppression, the conditions of poverty, misery and degradation into which the system has cast people and is determined to keep people in. The law and order the police are about, with all of their brutality and murder, is the law and the order that enforces all this oppression and madness.

Here’s another true statement from BA: “We need a revolution. Anything else, in the final analysis, is bullshit.”

A real revolution isn’t just protests or a general change. **REVOLUTION** means **OVERTHROWING** the system, defeating and dismantling its armed forces of violent repression through the conscious struggle of tens of millions of people. To be able to wage this struggle and WIN, we need to work now toward a revolutionary situation at the soonest possible time, by actively carrying out the “3 Prepares”: *Prepare the Ground, Prepare the People, and Prepare the Vanguard—Get Ready for the Time When Millions Can Be Led to Go for Revolution, All-Out, With a Real Chance to Win.*

Continued on back

We in the Revolution Club are taking up BA's leadership, the science and strategy for making revolution. The question facing you: to accept all this terror and brutality; to keep playing the fool to this system's promises of reform; to keep killing each other in the senseless gangbanging they have set us up to do—or to dig deeper, get with the Revolution Club, and take up fighting for a better world.

To start, you can spread and post this leaflet, spread the quotes below from Bob Avakian that speak the TRUTH about the role of the police and what will really deal with this system. And watch and spread the word of the film from Bob Avakian, *THE TRUMP/PENCE REGIME MUST GO! In the Name of Humanity, We REFUSE To Accept a Fascist America. A Better World IS Possible*. Everyone needs to see this right now both to understand the depth of the danger we are facing right now, what can be done to face this, and to introduce many more people to this revolutionary leader.

Revolution Club

The role of the police is not to serve and protect the people. It is to serve and protect the system that rules over the people. To enforce the relations of exploitation and oppression, the conditions of poverty, misery and degradation into which the system has cast people and is determined to keep people in. The law and order the police are about, with all of their brutality and murder, is the law and order that enforces all this oppression and madness.

Bob Avakian, *BAasics* 1:24

Let's get down to basics: *We need a revolution. Anything else, in the final analysis, is bullshit.*

Now, that doesn't mean we don't unite with people in all sorts of struggles short of revolution. We definitely need to do that. But the proffering of any other solution to these monumental and monstrous problems and outrages is ridiculous, frankly. And we need to be taking the offensive and mobilizing increasing numbers of masses to cut through this shit and bring to the fore what really is the solution to this, and to answer the questions and, yes, the accusations that come forth in response to this, while deepening our scientific basis for being able to do this. And the point is: not only do we need to be doing this, but we need to be bringing forward, unleashing and leading, and enabling increasing numbers of the *masses* to do this. They need to be inspired, not just with a general idea of revolution, but with a deepening understanding, a scientific grounding, as to why and how revolution really *is* the answer to all of this.

Bob Avakian, *BAasics* 3:1
