

THE POLICE MUST STOP THEIR ATTACKS ON THE REVOLUTION! We Have the Right to Raise Our Heads!

In the last week and a half, Chicago police have carried out 11 arrests of revolutionaries on bullshit charges, trying to keep them away from the people. The revolution will not be backed off or shut down!

At a time of immigrant children being ripped from their parents, a horrific death toll in Puerto Rico, police-state repression of Black and Brown people, and countless other horrific crimes of this system, the Revolution Club has been organizing all over the country with the message: This system can not be reformed. It must be **OVERTHROWN!**

Now we ALL need to step forward.

- **Take this flyer and spread the word** about these attacks on the Revolution Club and bring more people into the revolution.
- **Put on and put up the sticker** that says, “The Police Must Stop Their Attacks on the Revolution! We Have the Right to Raise Our Heads!”
- **Check out** HOW WE CAN WIN, How We Can **Really Make Revolution**, the strategy for the revolution. It says,
“While awaiting the necessary conditions to go all-out for revolution, we need to *hasten* this and actively carry out the “**3 Prepares**”: *Prepare the Ground, Prepare the People, and Prepare the Vanguard – Get Ready for the Time When Millions Can Be Led to Go for Revolution, All-Out, With a Real Chance to Win.* We need to **Fight the Power, and Transform the People, for Revolution** – protest and resist the injustices and atrocities of this system, and win people to defy and repudiate this putrid system and its ways of thinking, and to take up the outlook and values, and the strategy and program of the revolution, build up the forces for this revolution, and defeat the attempts of the ruling powers to crush the revolution and its leadership. With every “jolt” in society – every crisis, every new outrage, where many people question and resist what they normally accept – we need to seize on this to advance the revolution and expand its organized forces. **We need to oppose and disrupt the moves of the ruling powers to isolate, “encircle,” brutalize, mass incarcerate and murderously repress the people who have the hardest life under this system and who most need this revolution. We need to “encircle” them – by bringing forth wave upon wave of people rising up in determined opposition to this system.**”
- **Donate** (at [gofundme.com/RevolutionSummerChicagoFund](https://www.gofundme.com/RevolutionSummerChicagoFund)) and **Organize fundraising activities** to spread the word and gather much needed funds for legal defense, to replace materials and equipment seized by the police, and strengthen the movement for revolution.
