

Give The Best Gift You Could Give A REAL Way Out Of The Madness

At this time of year when everybody wants to hold their loved ones close, today many are “celebrating” the holiday season by visiting loved ones who are locked up in overcrowded cages and treated worse than animals—caught in the traps set for them by this system long before they were born. But there IS a way out, real hope.

Not by looking to heaven but by making revolution right here on earth. There is a way to do that, out of the conditions today. And there is leadership for that way, in Bob Avakian.

There’s more of a chance than there has ever been in our lifetimes to get rid of this hell through a real revolution. It’s not gonna be easy, but why would we do anything less when a better world is possible? To understand why and how, watch the new interviews with revolutionary leader Bob Avakian: Heart and Soul and Hard-Core for Revolution on [YouTube.com/TheRevcoms](https://www.youtube.com/TheRevcoms).

Bob Avakian (BA) recognizes the potential of the youth in the hardest hell to break out of what this system has them caught up in, he sees and speaks to their deeper aspirations for a future worth living in. He struggles hard with these youth to put their lives, creativity and energy into a chance to get this system off their backs, and off the backs of the people of the world, so no young person ever has to live a life of such desperation and hopelessness. Nobody speaks to these youth – or for these youth – with the revolutionary depth, science, sharpness and humanity like Bob Avakian.

As 2022 comes to a close and we look at what kind of year 2023 will be, be part of how we make it a year of revolution. Give the gift of a way out of this madness and make it your mission to put revolution on the map.
