

# A MESSAGE TO STUDENTS... AND OTHERS

## From the Revcoms

The masses of people around the world are suffering terribly, this system is splitting at its seams, and the planet stands at a precipice.

What this cries out for is:

**World changing**, not *word* changing...

**Heart**, not *snark*...

**Unity**, not *MY identity*...

**Emancipation**, not *cancellation*...

**Soaring the heights**, not *lowering of sights*...

**Science and daring**, not *"competing narratives"*...

**A REAL revolution**, not an *appeal for "inclusion."*

Take to the streets with the Revcoms on May 1 and show up for revolution and a world *without* oppression and exploitation.
